### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1724

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 14-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which Applicant regards as the invention. The recitation that each part of the treatment system measures “no more than 2.30 m wide by 2.37 m high by 6.08 m long” (claim 14, lines 2-3) is indefinite as to the limitation intended, since it is not clear whether this recitation means: (1) that the volume of the treatment system is no greater than the product of the three recited dimensions; or (2) that the width of the treatment system is no greater than 2.30 meters, and that the height of the treatment system is no greater than 2.37 meters, and that the length of the treatment system is no greater than 6.08 meters. Claims 15 and 16 depend from claim 14, and are therefore also indefinite.

Claims 11-13 are allowed because it is agreed that the references of record do not teach or suggest the combination of elements recited in claim 11, particularly since it has been demonstrated (i.e. via the Miers declaration) that the claimed system can treat water at high volume flow rates using smaller vessels, relative to conventional systems, with similar performance.

Claims 14-16 would also be allowed if rewritten or amended to overcome the above rejection under 35 U.S.C. § 112.

Applicant should update the status of parent application Serial No. 10/315,773 in the “Cross-Reference to Related Applications” section of the specification, in order to indicate that this parent application is now abandoned. Also, it is noted that the brief description of the drawings is located under the heading “DETAILED DESCRIPTION” (page 1, lines 23-27, of the

Art Unit: 1724

specification). Applicant should consider placing this "brief description of the drawings" under a separate similar heading.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to I. Cintins whose telephone number is (571) 272-1155. The examiner can normally be reached on Monday through Friday from 8:30 AM to 5:00 PM. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mr. Duane Smith, can be reached at (571) 272-1166.
